PRELIMINARY EXAMINATION 2020

SECONDARY FOUR EXPRESS /  
FIVE NORMAL (ACADEMIC)

MATHEMATICS 4048  
PAPER 1

2 HOURS

Candidates answer on the Question Paper.

## READ THESE INSTRUCTIONS FIRST

Write your index number and name on all the work you hand in.

Write in dark blue or black pen.

You may use an HB pencil for any diagrams or graphs.

Do not use staples, paper clips, glue or correction fluid.

Answer **all** questions.

If working is needed for any question it must be shown with the answer.

Omission of essential working will result in loss of marks.

The use of an approved scientific calculator is expected, where appropriate.

If the degree of accuracy is not specified in the question, and if the answer is not exact, give your answer to three significant figures. Give answers in degrees to one decimal place.

For  $\pi$ , use either your calculator value or 3.142, unless the question requires the answer in terms of  $\pi$ .

At the end of the examinations, fasten your work securely together.

The number of marks is given in brackets [ ] at the end of each question or part question.

The total of the marks for this paper is 80.

10 (a) Joshua takes 40 minutes to drive from his home to a shopping mall. The distance between his home and the shopping mall is 40 km.

(i) Find Joshua's average speed in km/h.

Answer (a)(i) ..... km/h [2]

Mitchel, drives from his home to the same shopping mall at an average speed of 72.6 km/h.

Mitchel takes 20 minutes and arrives at 1412 h.

(ii) Find the distance, in metres, between Mitchel's home and the shopping mall.

Answer (a)(ii) ..... m [2]

(iii) Find the time at which Mitchel leaves home.

Answer (a)(iii) ..... [1]

- (b) The diagram shows the speed time graph of an object over a period of 100 seconds. The object traveled 0.5 km in the last 60 seconds.

- (i) Calculate the acceleration of the object during the first 40 seconds.

Answer (b)(i) .....  $\text{m/s}^2$  [2]

- (ii) Calculate the duration, in seconds, when the object was travelling at a constant speed.

Answer (b)(ii) ..... s [2]

- (iii) Calculate the average speed, in m/s, of the car in the 100 seconds.

Answer (b)(iii) .....  $\text{m/s}$  [2]

For  
Examiner's  
Use

- (iv) In the space below, sketch the acceleration-time graph for the 100 seconds.

Answer

[2]

- 11 To help alleviate financial problems caused by the COVID-19 pandemic, Deputy Prime Minister Heng Swee Keat introduced the S\$48.4 billion Resilience Budget. This follows the S\$4 billion Stabilisation and Support Package for workers and firms, which was part of the S\$6.4 billion Unity Budget.

- (a) (i) Express 48.4 billion in standard form.

Answer (a)(i) ..... [1]

- (ii) What is the **total** amount of money the Singapore government has placed in so far to help alleviate the financial problems Singaporeans may face. Give your answer in millions.

Answer (a)(ii) S\$ ..... million [2]

**RESILIENCE BUDGET FOR COVID-19 PANDEMIC**
**HELP FOR THE SELF-EMPLOYED**

The Singapore Government will provide direct cash assistance to more self-employed people, to help them tide over this difficult period

- Introduce a S\$1.2 billion SEP Income Relief Scheme (SIRS) to provide eligible self-employed people with S\$1,000 a month for 9 months
- Extend the SEP Training Support scheme to Dec 2020
- Enhance the SEP Training Support scheme's hourly training allowance from S\$7.50 to S\$10, with effect from May 1, 2020

Infographic: Kenneth Choy  
Source: Ministry of Finance

Note: SEP means Self-Employed People

- (b) (i) Using the information above, estimate the number of eligible self-employed people the Resilience Budget will be able to help?  
Give your answer to the nearest whole number.

Answer (b)(i) ..... [1]

- (ii) As of September 2019, there is a total of 4026200 Singaporeans and Permanent residents.  
What is the percentage of Singapore Residents who will receive aid from the Resilience budget?

Answer (b)(ii) ..... [2]

# CUSHIONING THE IMPACT OF COVID-19

“ I am confident that together,  
we will stay strong, and  
get through these trying times. ”

Heng Swee Keat  
Deputy Prime Minister  
Minister for Finance

**\$4B**

## STABILISATION AND SUPPORT PACKAGE

To support affected workers and firms

- Retain jobs with wage support
- Cash flow support
- Property tax rebate for tourism sector
- Delay business costs for aviation sector
- Rental waivers for Government-managed hawker centres and properties

**\$800M**

## TO SUPPORT FRONT-LINE AGENCIES FIGHTING COVID-19

**\$1.6B**

## CARE AND SUPPORT PACKAGE

To support Singaporean families

- Up to \$300 cash for adult Singaporeans
- \$100 more for each parent with a child below 21
- Utilities rebates doubled, and more for larger families
- \$100 Passion Card top-up for all seniors
- \$100 supermarket vouchers for low-income

**\$6B**

## ASSURANCE PACKAGE

Cuts for Singaporeans  
when GST is raised after 2021

As part of the utilities rebate given to Singaporeans, all households with at least 1 Singapore citizen will receive a \$100 Solidarity Utilities Credit. In addition to that, they will also receive further rebates depending on their housing type which is illustrated in the table below.

Housing Type	Rebate received in April 2020	Rebate received in July 2020	Rebate to be received in October 2020
1- and 2-Room	\$300	\$300	\$100 or \$200
3-Room	\$270	\$270	\$90 or \$180
4-Room	\$240	\$240	\$80 or \$160
5-Room	\$210	\$210	\$70 or \$140
Executive/ Multi- Generation	\$180	\$180	\$60 or \$120

	Adam's family	Sherman's family
Number of working adults (inclusive of both parents who are working)	2	3
Number of seniors	2	0
Number of children below 21	2	2
Type of household	5-room HDB flat	Executive Mansionette

The table above shows the number of people living in Adam and Sherman's household.
